PROFESSIONAL SUMMARY

Detail-oriented and results-driven Full-Stack Developer with hands-on experience building scalable web and mobile applications using modern frontend and backend technologies. Experienced in API development, authentication systems, database management, and system integrations including USSD and payment platforms. Skilled in Flutter mobile development for building business-oriented applications. Passionate about solving real-world problems through clean, maintainable, and secure code.

TECHNICAL SKILLS

Programming & Scripting: Python, JavaScript, Dart

Frameworks & Tools: React.js, Vue.js, Django, Node.js, Flutter, Vite, Mocha, Chai

Systems & Infrastructure: Windows OS, Git, CI/CD pipelines, Docker (basics), Render

Database Management: MySQL, PostgreSQL, MongoDB

Tools & Technologies: Git & GitHub, VS Code

PROFESSIONAL EXPERIENCE

Software Development Intern - Feyti Medical Group Uganda | Internship

Key Responsibilities & Achievements:

- Built and maintained backend APIs using Django and Node.js
- Implemented authentication and role-based access control systems
- Integrated structured data submission and document upload features

- Collaborated with senior developers and stakeholders to translate business requirements into technical solutions
-

PROJECT EXPERIENCE

Marathon Management System – OneSpan Consultants Limited

- Designed and implemented a full-stack web application
- Built secure login and registration with password strength validation
- Implemented admin-only login activity tracking
- Developed runner registration system
- Created role-based dashboards
- Designed and implemented USSD menu flows for registrations and payments

Business Inventory & Profit Tracking Mobile App (Flutter)

- Developed a mobile application using Flutter (Dart) for managing products, sales, profits, and expenses
 - Implemented product inventory management (add, edit, delete, stock tracking)
 - Built profit tracking system with daily and weekly reporting
 - Designed expense tracking module with persistent local storage using SharedPreferences
 - Created intuitive UI with Material Design components for business usability
-

EDUCATION

Bachelor of Information Technology Mbarara University of Science and Technology (2016–2019)

Software Engineering Apprenticeship - Refactory Uganda | June 2025 – Dec 2025

- Full-stack software development (Marathon Management System)

CORE COMPETENCIES

- Backend Logic Implementation
- Secure API Development
- Mobile App Development (Flutter)
- System Integration (USSD & Payments)
- Problem Solving
- Technical Documentation
- Team Collaboration
